### APA Strategic Plan

APA is engaged in a process of transformation, placing a much greater emphasis on making an impact that clearly benefits society and improves lives. In February 2019, the governing body of APA, the Council of Representatives, adopted a new strategic plan that sets APA's organizational priorities for the next three to five years. Going forward, boards and committees will work in an integrated, collaborative, and multi-disciplinary manner since no single board or committee can achieve any of the plan's objectives on their own. Given the importance of this approach to the Association's strategic priorities,
